

WHEN THE SUN GOES HOME

LUCKY SMILE GAME

This game is based on Fukuwarai (foo-koo-WAH-rye), a traditional New Year's game in Japan. The word means "lucky laugh." Much like Pin the Tail on the Donkey, except the player tries to place facial features on the blank face to make a smiley sun.

HOW TO PLAY

1. Print out the activity sheets.
2. Cut out the facial features below.
3. Put on your blindfold.
4. Try to place the features in right place on the blank sun face. Other players can give instructions, for example, "Higher!" "To the left!" "There!"
5. Once you have finished, remove your blindfold and see your work. Did you get a nice smile?

Extra Activity: Look at the face you just created and discuss what the sun might be thinking or feeling.
